Advantages:

The FL-Series of proven compact frontloaded dryers is undergoing a permanent ecologic and economic improvement. Every single version has an ergonomic design, is easy and safe to handle and needs only few maintenance work. The robust sensors support the programmes safely during the automatic runs. Every programm can be configured individually.

Highlights:

- Variable heating (gas, electricity, steam, hot oil)
- CSA approval (US and CAN)
- For handling of textiles, options are steam injection or softener injection
- Easy unloading by tilting
- Sliding or hinged door options
- Heat recirculation (optional)
